Prescription Program Details*

1. The Program applies only to certain generic drugs at commonly prescribed dosages. You may obtain a list of generic drugs and dosages covered under The Program at randjdrugs.com. Not all formulations of a drug (for example, enteric-coated, extended or timed release formulations) are covered under the Program.
2. Under the Program, \$4.00 is the price for up to a 30-day supply of certain covered generic drugs at commonly prescribed dosages. \$10.99 is the price of a 90-day supply of certain covered generic drugs at commonly prescribed dosages. Not all drugs covered by the \$4.00 Program are covered under the \$10.99 Program. Prices for quantities between 30-day supply and 90-day supply of drugs covered by both the \$4.00 and \$10.99 Program are prorated based on the \$4.00 Program price, but will not exceed \$10.99. Prices for quantities greater than a 90-day supply of drugs covered by the \$10.99 Program are prorated based on the \$10.99 Program price. Prorated pricing is not available under the Program for prepackaged drugs.
3. Under the Program, a \$9.00 Program is the price for up to a 30-day supply of certain women's health and other covered generic drugs at commonly prescribed dosages. A \$24.99 Program is the price for certain women's health and other covered generic drugs at commonly prescribed dosages. Not all drugs covered by the \$9.00 Program are covered by the \$24.99 Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$9.00 Program and \$24.99 Program, are prorated based on the \$9.00 Program, but will not exceed \$24.99. Prices for quantities greater than a 90-day supply of drugs covered by the \$24.99 are prorated based on the \$24.99 Program price. Prorated pricing is not available under the Program for prepackaged drugs.
4. Prepackaged drugs are covered under the Program only in the unit sizes specified on the Drug List. Prepackaged drugs are dispensed based on the quantities prescribed and unit sizes in stock at the Pharmacy. Unit sizes not specified on the Drug List are not covered under the Program. Multi-unit purchases are charged at a per unit price, based on the price per unit size dispensed, unless otherwise specified. Prepackaged drugs dispensed in unit sizes not specified on the Drug List may be priced higher, even if equivalent quantities of the drug are available in specified unit sizes. Prorated pricing is not available under the Program for prepackaged drugs.
5. Program pricing may be limited to select manufacturers of a covered drug and is available as long as store supplies in stock at the Pharmacy from such manufacturers last.
6. You may pay less or more than the Program price, depending on the terms of your health plan. Prescriber permission may be required to change a 30-day prescription to a 90-day prescription. Certain plans, including government-funded programs, may not cover a 90-day supply.
7. These Program Details are subject to change without advance notice. Changes to these Program Details may be made only in writing.
